Help give drug-affected infants a safe and healthy start

Pediatric Interim Care Center, the Newborn Nursery, is the only facility in Washington State providing specialized, 24-hour medical monitoring and nursing care to safely withdraw prenatally exposed newborns from drugs. By donating to the event as a Title Sponsor, Patron, or Table Sponsor, you will make an investment in the lives of drug-exposed children in Washington State. Since its founding in 1990, PICC has become a national model and given 3,000 children a safe and healthy start in life.

Sponsor benefits and investment levels are outlined at right. A table for up to ten company representatives is included with each package. If you choose not to use all or any of the places at your company's table, the Luncheon Committee will assign a volunteer Table Captain to complete the seating. Your support will be deeply appreciated.
